

# Bias Tees up to 110 GHz

## TECHNICAL SPECIFICATIONS

- **Frequency Range**  
1 kHz to 110 GHz continuous coverage
- **High Current Capability**  
Available in versions rated for currents up to 10A
- **DC Voltage Rating**  
Withstands bias voltages exceeding 1.5 kV
- **Low Insertion Loss**  
Optimized design minimizes signal degradation across the extended frequency range
- **Impedance**  
Standard 50-ohm characteristic impedance
- **Connector Options**  
SMA and higher-frequency connectors for mmWave integration
