

NEX10 Cable Assemblies up to 20 GHz

TECHNICAL SPECIFICATIONS

- **Frequency Range**
DC to 20 GHz
- **Connector Type**
NEX10 miniature threaded RF connector
- **Cable Construction**
Flexible jacketed design for enhanced bendability
- **Impedance**
50 Ohm controlled impedance
- **Performance**
Low insertion loss and low VSWR across operating band
- **Configurations**
Standard and custom length options available

APPLICATIONS

5G & Telecommunications:
Cellular network testing and
measurement infrastructure

Laboratory & Test: RF
measurement systems and
instrumentation connectivity
requiring frequent
reconfiguration

SATCOM: Satellite
communication systems and
microwave signal distribution

Antenna Systems: Feed
networks and signal distribution
applications
