

Resistor Power Dividers up to 67 GHz

TECHNICAL SPECIFICATIONS

- **Frequency Range**
DC to 67 GHz
- **Connector Type**
1.85mm female
- **Performance**
Low insertion loss and controlled VSWR across full bandwidth
- **Design**
Compact and robust construction
- **Configuration**
Multiple resistor power divider models available

APPLICATIONS

5G/6G & Telecommunications:
Infrastructure signal distribution
and broadband networks

Test & Measurement: Precision
signal splitting in laboratory and
production environments

SATCOM: Satellite
communication systems and
ground stations

Radar & Automotive: Target
detection, imaging systems, and
automotive radar applications

Defense & Aerospace:
Electronic warfare systems and
secure communication platforms
