

# Termination up to 110 GHz

## TECHNICAL SPECIFICATIONS

- **Frequency Range**  
DC-110 GHz
- **Connector Type**  
1mm male and 1mm female
- **Power Handling**  
1W nominal
- **VSWR**  
Optimized across full frequency range
- **Interface**  
1mm coaxial connector standard

## APPLICATIONS

Test & Measurement: Network analyzer calibration, instrument terminations, and RF system characterization

5G/6G Development: mmWave band testing and validation for sub-6 GHz and FR2 frequencies

SATCOM: Satellite communication equipment testing and integration

Defense & Aerospace: High-frequency subsystem verification and performance validation
