

Switches up to 260 GHz

TECHNICAL SPECIFICATIONS

- **Frequency Range**
Standard waveguide switches from WR3 to WR975 (up to 260 GHz)
- **Double Ridge Waveguide**
WRD110 to WRD750 for compact broadband solutions
- **Dual Waveguide Switches**
WR34 to WR229 for parallel signal routing
- **Low Insertion Loss**
Optimized for pulsed and CW operation
- **High Switching Speed**
Millisecond range for dynamic applications
- **Custom Solutions**
Configurable designs available upon request
