

Waveguide Termination Loads up to 500 GHz

TECHNICAL SPECIFICATIONS

- Frequency range up to 500 GHz
- Waveguide bands from WR2300 to WR2.2
- Available in low power, medium power, and high power versions
- High power version suitable for power levels exceeding 15 kW
- Excellent return loss performance
- Custom solutions available upon request

APPLICATIONS

Communication systems

Test and measurement
equipment

Radar systems

Scientific research
